

Spectacular road show.

Bring presentations and videos to life anywhere, anytime.

Taking your next show on the road? Display presentations and videos in vibrant 720p resolution, even in bright or ambient light conditions. Use it alone, or 'stack' it with other ThinkPad® Stack modules like a fast HDD to hold your content, speakers for large rooms or a Power Bank for up to additional 2.5 hours of operation. The convenient ThinkPad® Stack Assistant app gives you full wireless remote control and wireless file projection between projector and devices. As a mobile projector, or even as a portable media hub for home or office, this versatile mobile projector brings your presentations and videos to life.

WHY YOU SHOULD BUY THE LENOVO™ THINKPAD® STACK MOBILE PROJECTOR

	Show vibrant visuals 720p native resolution ensures crisp, clear, colorful video and images, even in bright or ambient light conditions.		Project from any device Use HDMI™ or wireless connections to project content from virtually any device - laptop, tablet, smartphone or desktop.		Stack it for versatility Stack the Mobile Projector with other ThinkPad® Stack modules like a fast HDD to easily projecting and hold content without cables, speakers for large rooms, or a Power Bank for up to additional 2.5 hours of operation.
